

PURPOSE

Our purpose is to provide investors of all types with easy and immediate access to a diversified portfolio of high-quality global infrastructure assets via a single vehicle, targeting capital growth and a progressive dividend.

This portfolio, which is diversified by sector and geography, is designed to generate sustainable, attractive returns over the long term. We achieve this by targeting assets which have strong sustainability credentials, and often underpin the transition to a low-carbon economy. We invest in private assets which we believe will benefit from strong downside protection through inflation linkage and other defensive characteristics.
